

CCPA Metrics

Last Updated: July 20, 2022

Beginning July 1st 2021, under Section 999.317(g), The California Consumer Privacy Act (CCPA) has required that companies report the following four metrics on annual basis:

Requests to Know: The number of requests to know that the business received, complied with in whole or in part, and denied.

Requests to Delete: The number of requests to delete that the business received, complied with in whole or in part, and denied.

Requests to Opt-Out: The number of requests to opt-out that the business received, complied with in whole or in part, and denied.

Provide the Median or Mean: Number of days within which the business substantively responded to requests to know, requests to delete, and requests to opt-out.

Since we began operations in August 2022, at this date (July 20, 2022), we have no metrics to report.
